## Future Events . . .

### *Fly the Ford Tri-Motor*

*June 26-29 at Commander Aero*

Call the EAA for reservations at 800-843-3612 or go on line at [www.flytheford.org](http://www.flytheford.org).

Charles Kettering would be pleased to know that a Ford Tri-Motor will be kept in the hangar he built in 1957. His friend Col. Deeds took delivery of one of the first Ford Tri-Motors and is credited with initiating corporate aviation by being the first CEO to use an airplane for business.

## Commander Aero will host . . .

Able Flight will make a brief stop at Commander Aero on July 22 between 10:00a.m. and noon as part of their *Ability Barn Storming Tour* which will conclude at Oshkosh. Please help us welcome them to the Dayton area. Visit [www.ableflight.org](http://www.ableflight.org) for more details.

Commander Aero is pleased to host . . .

### **CESSNA PILOTS ASSOCIATION FLY-IN**

October 1 – 5, 2008

Come see the excitement of 150 Cessna aircraft coming to Commander Aero from all over the U.S.

## Free IFR Certification . . .

Commander Aero is pleased to provide a free IFR certification on your airplane in conjunction with an annual, 100, or 150 hour inspection.

This offer is good through June 30, 2008. Call Gary at 885-5580ext16 to schedule your inspection.

Jason Griggs performing bi-annual IFR certification.

## Cabin Pressurization . . .

### *Testing Cabin Pressurization*

Bryan Hix and the Commander Aero team have developed a solid reputation for getting your 4.0 or 5.0 cabin pressure differential back. This allows you to fly at higher altitudes that provide better fuel economy.

## Cirrus Service . . .

### *New racks for composite assemblies*

Commander Aero has built 4 racks for holding Cirrus nacelles and wheel pants while the airplane is undergoing service. The racks have protective carpeting to protect the composite surfaces from scratches.

### *New Composite Material Cabinet*

To improve efficiency for making composite repairs Commander Aero has constructed a cabinet for keeping the materials clean and easy to access.
