

*Please welcome . . .*

Jasson Czaika, A&P / AI

Before joining *Commander Aero* Jasson worked for Select Aircraft Service, Warren County Airport, D&K Aviation and Daniels Aviation. He attended initial maintenance courses on Citations (I, II, SII, Bravo), King Air (200 series), and Pilatus (PC-12).

Steve Schmid, A&P / AI

Steve began his aviation career with Commander Aero where he worked for 11 years. After working for AIR-HI-O, Conrad Aviation Technologies, and Howard Industries he joined R&L Carrier where he was Director of Maintenance for 11 years. Steve attended many initial maintenance courses including Falcon 2000, Lear 60, King Air 300/350, Bell 206BIII and Saberliner 65.

## AVIDYNE Release 9

Gil Williamson and John Bosch looking into a big void where the panel used to be. As Gil puts it "Commander Aero performed brain surgery on N426GW." Gil likes to say that the installation was completed on time, within budget and everything worked as advertised.

N426GW with Release 9

After much study of capabilities Gil Williamson selected Avidyne's Release 9 for his SR22 Cirrus N426GW. It has proved to be all he had hoped for particularly in reducing his work load while improving safety through extensive redundancy. Gil is always pleased to talk to anyone about Release 9 and Commander Aero.

Please come to our ...
